

# Starprim Grade II

## Certified high-capacity security storage

- A heavy-duty safe designed for professional environments.
- Available in Grade II Burglary Protection according to EN 1143-1, certified by VdS
- Models from 39 litres to 847 litres.
- Prepared for base anchoring.
- Colour: RAL 7035 – light grey.
- Three-way locking mechanism with flat bolts in all models up to 2395/N, and round bolts from 2440/N and above.
- An overhanging bar on the hinge side provides additional security for the safe.
- The door opening is fitted with insulating seal to limit the passage of smoke, gases, dust, and fire.
- The anchoring preparation is designed as standard to allow the installation of a tear sensor.
- Shelves are adjustable in height every 50 mm.
- Wide-opening hinges allow the door to open up to 205° for easy access.
